

Help horses receive
the care they
deserve!

Horses need your help!

01.

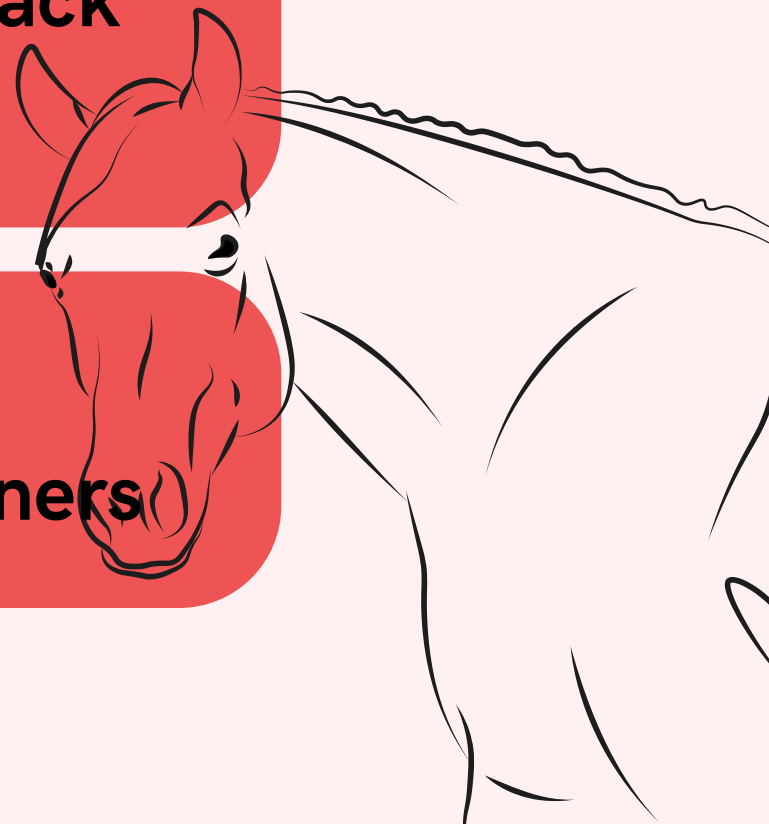

In Chandigarh, over 200 working horses face harsh conditions without proper care or first aid

02.

Many of these horses suffer from easily preventable diseases because of lack of resources and funds.

03.

Our project provides first aid resources and training to economically disadvantaged horse cart owners for the well-being of their equine partners

How we help

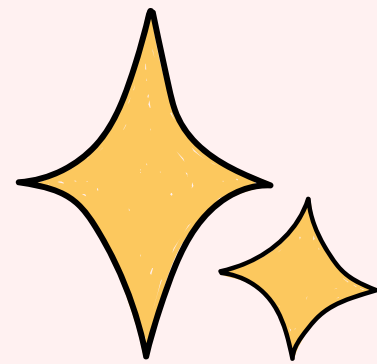

Our project helps support these overworked horses by:

Funding essential medications

Distributing first aid kits throughout Tri city

Our progress

A first aid kit box
with all the
essential
medicines costs
Rs.450

So far we have
distributed kits to
over 25 horsecart
owners

We have raised
money for 100
horses
