Spreading Smiles

The water bowl project is a brilliant idea, not just for dog's but for every animal. Cows, Squirrels and all birds come and drink through it even insects. 🌱

It is wonderful to see that so many are provided with clean and cold water every day in scorching heat.

I'm glad who all made an effort into it I clean and fill it everyday as my responsibility towards welfare of animals. 😊

Omg. Snoopy was the first pup I saved in Hyd, and in my life, his own parents used to attack him, I gave him to my watchman and he was happy for a few months, until he ran away, and I never saw him again. Thank you to whoever who did this. For our snoopy ❤️ For all the snoopies
